

Christopher Martinez Servin

 cmarti397@alumni.harvard.edu •  marti397.github.io •  marti397 •  chrismartinezservin
Chicago, IL

Education

Purdue University: Bachelor of Science, Industrial Engineering May 2014

Harvard University: Master of Liberal Arts, Information Management Systems May 2017

Harvard University Extension School: Graduate Certificate, Data Science May 2017

Clemson University: Master of Engineering, Risk Engineering and System Analytics Dec 2020

Continuing Education

Center for Chemical Process Safety: Certificate, Process Safety Boot Camp June 2020

American Institute of Chemical Engineers Academy: Certificate, PSM Overview May 2018

Programming Experience

JS MEAN Stack, ML with Python, Statistical Analysis with R, SQL & NoSQL DBs, Google Cloud Core

Awards

Harvard University: Master of Liberal Arts, Dean's List Academic Achievement Award (3.86 GPA)

Work Experience

Servin Engineering: *Principal Risk Engineer* Jan 2024 - Present

Delivered comprehensive risk assessments and developed robust engineering-based solutions to reduce risks and exposures at large commercial and industrial properties

Kennesaw State University: *Adjunct Instructor of Software Engineering* May 2023 - March 2025

Part-time faculty member of Software Engineering and Game Development in the College of Computing and Software Engineering at Kennesaw State University. Courses taught include, SWE 3643: Software Testing & Quality Assurance
SWE 4662: Software Project Management

Blue Origin: *Aerospace Systems Engineer* Feb 2023 - May 2023

Supported and improved the execution of the systems engineering risk, issue, and opportunity processes for the New Glenn heavy-lift orbital launch vehicle. Worked directly with engineering and program management teams to identify and manage risks, issues, and opportunities and lead mitigation strategies and burndown plans. Enabled New Glenn's successful development and operation of complex spaceflight hardware.

Risk Logic Inc.: *Senior Risk Engineer* May 2023 - Present

Completed highly protected risk (HPR) loss control engineering surveys and performed comprehensive COPE and natural peril analyses at a wide range of high-challenge occupancies.

Loss Control Services, Inc.: *Senior Risk Engineer* Sept 2023 - Present

Partnered with underwriting and corporate clients to assess property, casualty, and construction hazards. Evaluated industrial and commercial sites to identify physical, operational, and natural hazards, and designed mitigation strategies to protect assets.

American International Group (AIG):*Account Risk Engineer*

June 2020 - Feb 2023

Conducted holistic risk assessments of Large Limit, Middle Market, and E&S accounts that allow underwriters to better underwrite risk. The analysis assisted with the decision making to allocate capacity, buy reinsurance, and choose the correct risk appetite. The assessments included analyzing physical risks and the intricacies of exposures to the business income of our clients.

Field Risk Engineer

Jul 2014 - May 2020

Conducted risk evaluations to identify and analyze conditions that could result in property damage and business interruption. Helped manage workplace hazards, developed safety programs, and navigated regulatory requirements in whichever industry clients operate.

Georgia Institute of Technology: *Computer Science Student Instructor*

Sept 2022 - Feb 2023

Led weekly informal computer science classroom sessions as part of the NSF-funded project "Remezcla" to help expand middle and high school students' STEM engagement and opportunities. Taught coding in python and music composition by implementing and assessing the learning curriculum on the EarSketch (<https://ears sketch.gatech.edu>) platform.

RSA, The Security Division of EMC: *Anti-Fraud Analyst I*

Jan 2013 - May 2013

Detected and analyzed online threats (phishing, pharming and the like) and acted according to RSA procedures to deploy counter measures, block and shut down the threat.

Vasc Alert: *Software Engineering Intern*

Sept 2012 - Dec 2012

Modified the CRM software (SugarCRM) according to the specifications of the manager.

Purdue University: *Software Engineering Intern*

Aug 2011 - Dec 2011

Developed a web-based database application using MySQL and Visual Basic to store patients' records for the Engineering Projects in Community Service (EPICS) program.

Work Sample**US Presidents**

Visualization with D3.js

R, T-Tests, LogReg, AIC, P-Value Permutation Test

C. Martinez, M. Campara, N. Goldberg, S. Zhao, 2015.

http://marti397.github.io/public_docs/ManU_Stats.pdf**Teaching****Purdue University:** *Supplemental Instruction Leader*

Jan 2013 - May 2013

Planned and led weekly classroom sessions of the Modern Mechanics course at Purdue University (PHYS 172) as part of the Supplemental Instruction program

Language**Fluent:** *English and Spanish***Purdue University:** *Milton in Translation Internship*

Sept 2011 - Dec 2011

Translated and contrasted the 17th century verse “Paradise Lost” by John Milton. This was completed to support the research work of Professor Angelica Duran.

Entrepreneurship

MCE Sports: *Partner*

Aug 2012 - Jun 2014

Founded a college-recruiting agency that helps Mexican athletes obtain college scholarships in the United States.

Leadership

Purdue University: *Resident Assistant*

Jul 2013 - May 2014

Facilitated the social, academic, and personal adjustment of graduate students to the residence hall and University. Enforced the rules and policies of Residence Life, Housing Services and the University. Acted as a liaison between residents and the University administration.

Delta Pi Rho Fraternity: *Recruitment Chair*

May 2011 - May 2012

Planned, organized and developed fall and spring recruitment events.

Purdue University: *Student Clerk*

Aug 2011 - Dec 2012

Focused in providing business support in the Community Center at the Purdue Village Residence Hall.
